Core Vouchers for CFAR & CFAR-affiliated services:

The UCLA-CDU CFAR offers vouchers to offset or cover costs and are reserved for Early-Stage Investigators with limited or no funding. Vouchers are limited to \$2,500 per request.

Type of Voucher Requested:

- **Vouchers for Biostatistical Support** Services available through UCLA CTSI BERD and UCLA DOMStat include: study design (sample size assessment, evaluation of study endpoints), data collection infrastructure support (support for case report form development, database creation using REDCap), data management (data quality control, data merging/formatting), data analysis (developing and carrying out data analytic plans) and manuscript preparation (results reporting, figures and tables developments, crafting methods sections).

See the [UCLA CTSI website](#) for more information

- **Voucher for UCLA Flow Cytometry Core** services for unfunded Early-Stage Investigators (ESI) to utilize services in support of pilot data experiments. For use of specialized equipment in the Flow Cytometry Core (i.e. Helios CyTOF Mass Cytometer or a need for sorting of HIV infected cells).
- **Voucher for CFAR Core Services** The UCLA-CDU CFAR Centralized Laboratory Support Core offers free consultation and voucher credits for Early-Stage Investigators (ESI) for core services and/or instrumentation for obtaining pilot data for grant submission.

See the [Centralized Laboratory Support Core](#) page for more information.

APPLICATION INSTRUCTIONS

Please prepare the following and fill out the online application at the following [LINK](#) and click on **Core Vouchers for CFAR & CFAR-affiliated services**:

- **Title of Project** (*Choose a descriptive title that is specifically appropriate*).
- **Project Description** (*Brief description of how the core services will support your research*).
- **Amount Requested.**
- **Other Information** (*If a quote or other information regarding services and associate costs is available, please upload it here*).
